

Professional Learning for teachers and administrators

## SMART Table® 442i collaborative learning center

### Overview

---

SMART Table 442i collaborative learning center is an educational tool that brings students together for an irresistibly captivating experience. So inclusive, learners of every ability will grow academically and socially. So fun, they'll forget they're learning. Up to eight students can work together at the same time encouraging social and academic development.

SMART provides valuable training, professional development and support resources, helping you use SMART hardware and software to its full potential.

There are multiple self-paced online courses and bundles available. By enrolling, you'll develop pedagogical and product-usage skills and your achievements will be globally recognized.

These courses cover topics on a variety of products, including frameworks for guidance and adoption, feature walk-throughs and opportunities to update select past certifications.

Find courses and other resources to ensure you have the skills and confidence to use SMART solutions effectively in the classroom.
