Touch and gestures	Perform mouse functions with your finger, and write and erase digital ink with a pen tray pen or the eraser. The Object Awareness feature enables you to pick up a pen, and then write, select or erase without replacing the pen. This interactive whiteboard also features gesture capability, providing a natural and flexible way to interact with content.
Multitouch capabilities	<ul style="list-style-type: none">• Users can interact with the interactive whiteboard using the included pens or other objects, or by using their fingers to write and perform gestures.• Support for four simultaneous touches enables up to four users to interact with the interactive whiteboard.
SMART Ink™	Smooths out the appearance of the digital ink, improving the legibility of your handwriting. The ink becomes an object you can move and manipulate.
Lockable pen option	Hold down a pen color button on the pen tray until its light flashes to lock the interactive whiteboard in pen mode. In this mode you can use any device as a pen. Early education students and students with special needs can use an object like a tennis ball to write more easily on the surface.
Pen tray	<ul style="list-style-type: none">• Optical sensors in the pen tray detect when you lift a pen or eraser from the tray. Color buttons on the pen tray enable you to select pen color.• Removable end caps for optional accessories
Pen and eraser	Two ergonomic pens with a comfort grip and a rectangular eraser
Touch resolution	Approximately 4000 × 4000.
Screen surface	The hard-coated steel surface is durable, optimized for projection, compatible with dry-erase markers and easily cleaned.
