# SMART Board® 880i5-SMP / 885i5-SMP interactive whiteboard system cabling guide

Your SMART Board 800i5-SMP interactive whiteboard system includes the following:

- an integrated extended control panel (ECP) that controls power, source selection and volume. The ECP also acts as an integrated USB hub, enabling you to switch seamlessly between two connected computers.
- a USB A connection for an easily accessible USB connection for your in-room computer.
- a USB cable to connect a dedicated in-room computer.
- a SMART Meeting Pro™ software download for the in-room computer.
- a SMART GoWire™ auto-launch cable with SMART Meeting Pro software to connect to a guest laptop.
- a VGA Connection Kit for easy access to a VGA connection point on the SMART Board interactive whiteboard.
- a CAT 5 USB extender for SB800 series to extend your USB connection up to 50' (15 m).
- an adapter cable to easily incorporate third-party room control systems
