

Release notes

# SMART Meeting Pro® PE 1.x software

## Overview

SMART Meeting Pro® PE software enables you to open and edit files created with SMART Meeting Pro software, and create new files to prepare for meetings. You can write, draw and erase digital ink, insert text and images, and manipulate objects. You can then save files in .fcwx, .fcw or .pdf format to share with others.

SMART Meeting Pro PE software comes with SMART Product Drivers and SMART Ink™ so that you can connect your personal computer to a SMART interactive product, such as a SMART Board® interactive flat panel or a SMART Board interactive whiteboard, and use the interactive product's touch and digital ink features. In addition, SMART Meeting Pro PE software is bundled with Bridgit® conferencing software so that you can create or connect to meetings using your personal computer, enable others to write on your screen and write on others' screens.

You can download SMART Meeting Pro PE software from [smarttech.com/downloads](http://smarttech.com/downloads).

## Computer requirements<sup>1</sup>

	Windows® operating systems	Mac OS X operating system software
<b>Supported operating systems</b>	Windows 8.1 Windows 8 Windows 7 SP1	Mac OS X 10.10 (Yosemite) Mac OS X 10.9 (Mavericks) Mac OS X 10.8 (Mountain Lion) Mac OS X 10.7 (Lion)
<b>Minimum processor</b>	2.0 GHz dual-core	2.5 GHz Intel® Core™ i5 dual-core
<b>Minimum RAM</b>	2 GB (4 GB recommended)	4 GB 1600 MHz DDR3
<b>Minimum hard disk space<sup>2</sup></b>	1 GB	1 GB
<b>Other requirements</b>	Microsoft® .NET Framework 4.5.1 Full Microsoft Visual Studio® Tools for Office	

<sup>1</sup>Operating systems and other third-party software released after this SMART software might not be supported

<sup>2</sup>Additional free space required during installation

## SMART Meeting Pro PE 1.4 software<sup>3</sup>

<b>Versions</b>	Windows operating systems	1.4.457.0
<b>Related software</b>	SMART Product Drivers 12.1 SMART Ink 3.0 Bridgit 4.6 SP1 software	<a href="http://smarttech.com/kb/170804">smarttech.com/kb/170804</a> <a href="http://smarttech.com/kb/170832">smarttech.com/kb/170832</a> <a href="http://smarttech.com/kb/170412">smarttech.com/kb/170412</a>
<b>Highlights</b>	<ul style="list-style-type: none"> <li>• Support for SMART Board 8000i-G5 series interactive flat panels</li> <li>• Support for SMART Ink 3.0 floating toolbar<sup>4</sup></li> <li>• New file format (.fcwx)</li> </ul>	
<b>Known issues</b>	<ul style="list-style-type: none"> <li>• When you're installing SMART Meeting Pro PE software, a message might appear prompting you to restart the computer. Do not restart the computer until after the installation is complete.</li> <li>• See also <a href="#">SMART Meeting Pro PE 1.3 software known issues</a></li> </ul>	

## SMART Meeting Pro PE 1.3 software<sup>5</sup>

<b>Versions</b>	Windows operating systems	1.3.103.0
<b>Related software</b>	SMART Product Drivers 11.6 SMART Ink 2.3 Bridgit 4.6 SP1 software	<a href="http://smarttech.com/kb/170778">smarttech.com/kb/170778</a> <a href="http://smarttech.com/kb/170570">smarttech.com/kb/170570</a> <a href="http://smarttech.com/kb/170412">smarttech.com/kb/170412</a>
<b>Highlights</b>	<ul style="list-style-type: none"> <li>• SMART Room System™ USB Bridge support</li> </ul>	
<b>Resolved issues</b>	<ul style="list-style-type: none"> <li>• SMART Meeting Pro PE 1.3 software improves the opening of menus (<i>File</i>, <i>Edit</i> and so on) when using a SMART Board 8055i interactive flat panel, a SMART Board 880 interactive whiteboard or a SMART Podium™ interactive pen display.</li> </ul>	
<b>Known issues</b>	<ul style="list-style-type: none"> <li>• If you connect your computer to a SMART interactive product (or other external display), set the extended display as the main display and then start SMART Meeting Pro PE software on the main display, the SMART Meeting Pro PE software window appears black when you disconnect the external display.</li> </ul>	

## SMART Meeting Pro PE 1.2 software

<b>Versions</b>	Windows operating systems Mac OS X operating system software	1.2.206.0 1.2.166.0
<b>Related software</b>	SMART Product Drivers 11.5 SMART Ink 2.2 Bridgit 4.6 SP1 software	<a href="http://smarttech.com/kb/170654">smarttech.com/kb/170654</a> <a href="http://smarttech.com/kb/170570">smarttech.com/kb/170570</a> <a href="http://smarttech.com/kb/170412">smarttech.com/kb/170412</a>

<sup>3</sup>Available for Windows operating systems only

<sup>4</sup>See the *SMART Ink 3.0 release notes* for additional new features in SMART Ink

<sup>5</sup>Available for Windows operating systems only

## Highlights

- All operating systems
    - Bookmarks
    - Panning by pressing the SPACEBAR or the middle mouse button
    - Returning to 100% magnification by double-clicking
    - Shape tool
    - Handwriting conversion to text
    - Inserting PDF files into Whiteboard files
    - ToolTips
    - Cutting or copying objects and pasting them in other applications
    - Page cloning
    - Simplified interaction with SMART interactive products<sup>6</sup>
    - Optional installation of Bridgit software
- 

- Windows
    - Inserting Microsoft PowerPoint® presentations into Whiteboard files
- 

## Resolved issues

- All operating systems
    - Previously, if you pressed your SMART interactive product's screen while erasing digital ink with its eraser, the eraser icon would persist on the whiteboard area. SMART Meeting Pro PE 1.2 software resolves this issue.
    - If you select a tool in the toolbar by pressing it with your finger, the cursor doesn't change position, which is the same behavior as in SMART Meeting Pro software.
    - If you open a file in SMART Meeting Pro PE 1.2 software that contains bookmarks you created in SMART Meeting Pro software, the bookmarks display as expected.
- 

- Windows
    - You can move the text toolbar using a mouse, your finger or a pen when your computer is connected to a SMART interactive product.
- 

- Mac OS X
    - Previously, if you were using more than one display and turned on or off a connected SMART interactive product, SMART Meeting Pro PE software stopped responding. SMART Meeting Pro PE 1.2 software resolves this issue.
    - Previously, when you captured a SMART Ink Note, the note was obscured by the SMART Meeting Pro PE software toolbar. SMART Meeting Pro PE 1.2 software resolves this issue.
- 

## Known issues

- Mac OS X
    - SMART Meeting Pro PE software can stop responding when you open specific dialog boxes using a pen or touch on SMART interactive products.
-

## SMART Meeting Pro PE 1.1 software

<b>Versions</b>	Windows operating systems	1.1.970.0
	Mac OS X operating system software	1.1.785.0
<b>Related software</b>	SMART Product Drivers 11.4	<a href="http://smarttech.com/kb/170618">smarttech.com/kb/170618</a>
	SMART Ink 2.1	<a href="http://smarttech.com/kb/170570">smarttech.com/kb/170570</a>
	Bridgit 4.6 SP1 software	<a href="http://smarttech.com/kb/170412">smarttech.com/kb/170412</a>
<b>Highlights</b>	<ul style="list-style-type: none"> <li>• Unbound Workspace support</li> <li>• Gesture support</li> <li>• Screen capture toolbar</li> <li>• Locking, grouping and link objects</li> <li>• When you share your Whiteboard files using Bridgit software, others can erase digital ink in the files.</li> <li>• SMART Product Update (SPU) access through <b>Help &gt; Check for Updates</b>.</li> <li>• Log file for diagnosing issues</li> </ul>	
<b>Resolved issues</b>	<ul style="list-style-type: none"> <li>• You can open very large Unbound Workspace files created in SMART Meeting Pro 4.0 software without issue.</li> <li>• You can type text with different formatting at the beginning of a text box without inadvertently deleting existing text in the text box.</li> <li>• When you paste an object near the edge of the page, the object appears in that location rather than in the top-left corner of the page.</li> </ul>	
<b>Known issues</b>		
Windows	<ul style="list-style-type: none"> <li>• It can be difficult to open menus (<i>File</i>, <i>Edit</i> and so on) in the SMART Meeting Pro PE software user interface when using a SMART Board 8055i interactive flat panel, a SMART Board 880 interactive whiteboard or a SMART Podium interactive pen display. <i>Resolved in SMART Meeting Pro PE 1.3 software</i></li> <li>• You can move the text toolbar using only a mouse. You're unable to move the toolbar using your finger or a pen when your computer is connected to a SMART interactive product. <i>Resolved in SMART Meeting Pro PE 1.2 software</i></li> </ul>	
Mac OS X	<ul style="list-style-type: none"> <li>• When you browse through text using the arrow buttons on your keyboard, visual artifacts appear after the insertion point.</li> <li>• The mouse pointer might not display the correct icon in certain circumstances. For example, the mouse pointer might display a pen icon when you hover over the title bar or menu when it should display an arrowhead icon.</li> <li>• If you attempt to edit a text box with two separately formatted words that are separated by a space, the space disappears.</li> </ul>	

## SMART Meeting Pro PE 1.0 software

<b>Versions</b>	Windows operating systems Mac OS X operating system software	1.0.997.0 1.0.1161.0
<b>Related software</b>	SMART Product Drivers 11.2 SMART Ink 1.5 Bridgit 4.6 software	<a href="http://smarttech.com/kb/170519">smarttech.com/kb/170519</a> <a href="http://smarttech.com/kb/170511">smarttech.com/kb/170511</a> <a href="http://smarttech.com/kb/170412">smarttech.com/kb/170412</a>
<b>Highlights</b>	<ul style="list-style-type: none"><li>• Creating, opening, editing .fcw files</li><li>• Opening .notebook files</li><li>• Writing, drawing and erasing in four colors and four thicknesses</li><li>• Highlighting in two colors</li><li>• Inserting and editing text</li><li>• Support for PNG, JPEG, BMP, TIFF and GIF formats</li><li>• Customizable user interface</li><li>• Creating, deleting and reordering pages</li><li>• Bridgit software support</li></ul>	
<b>Known issues</b>	<ul style="list-style-type: none"><li>• There are limitations when opening very large Unbound Workspace files created in SMART Meeting Pro 4.0 software. <i>Resolved in SMART Meeting Pro PE 1.1 software</i></li><li>• If you type text with different formatting at the beginning of a text box, the software selects and deletes any existing text in the text box up until the next change in formatting. <i>Resolved in SMART Meeting Pro PE 1.1 software</i></li><li>• If you attempt to paste an object near the edge of the page, the object could appear in the top-left corner of the page instead. <i>Resolved in SMART Meeting Pro PE 1.1 software</i></li></ul>
