| Browser | Browser can download and save files in the Files Library |

Resolved issues

| | |
|---|---|
| System software | <ul style="list-style-type: none"> • Selecting and deleting all files didn't delete all files [76661]. • Disabling the Library for the kapp Whiteboard disabled the Library for all signed-in users. All kapp Whiteboards would have eventually been deleted too [67803]. |
| Screen Share | <ul style="list-style-type: none"> • Audio was absent when using the SMART Screen Share app on a Mac computer with macOS 10.15 [80446]. • After a device using Miracast stopped sharing its screen, Screen Share closed unexpectedly [67303]. • The display might not automatically disconnect from the Wi-Fi network when a device using Miracast shared its screen [66324]. • When both Ethernet and Wi-Fi were enabled on the display, the Screen Share app showed the connection information for the Wi-Fi connection [60444, 417977]. • Samsung mobile devices should have used the Google™ Home app to share content [417994, 10815]. • Text appeared blurry when using Google Cast in the Chrome browser or Cast from a Chromebook or a mobile device [407403, 10784]. |
| SMART Notebook Player for the display (education models only) | <ul style="list-style-type: none"> • Customizations to the dice widget in a SMART Notebook file created on a computer wouldn't appear on the display [79927] • If more space was added to a page, any content on the page might have been unreadable when the SMART Notebook file was exported as a PDF [64383]. • When presenting a SMART Notebook file on the display, the ink in the SMART Notebook file might not have been saved if the mobile device was no longer connected to a network [43205] |

Known issues

| | |
|---|---|
| System software | <ul style="list-style-type: none"> • When copying a file that currently has the same file name as a file on a USB drive, the old file is not replaced on the USB drive. Rename the file on the display and then copy it to the USB drive [85347]. • Home screen appears after a brief delay when the display starts [35475]. |
| Screen Share | <ul style="list-style-type: none"> • The Screen Share app on iPad with iOS 12.4.5 causes out-of-synch audio or no audio. Upgrade the iPad's operating system to the latest iOS version [90086]. • Devices that can't use h.264 cannot share their screen reliably [389774]. |
| SMART Notebook Player for the display (education models only) | <ul style="list-style-type: none"> • The following SMART Notebook file content is not supported by SMART Notebook Player: <ul style="list-style-type: none"> ◦ Flash® widgets ◦ GeoGebra ◦ Lesson Activity toolkit ◦ 3D objects ◦ SMART blocks ◦ Concept mapping • The Player app closes unexpectedly when you open a SMART Notebook file that contains SMART response® 2 question set that has more than 10 images in it [18287]. |
