SMART Notebook 22 collaborative learning software

Release notes

- Mac
- Users no longer require Rosetta 2 to be installed as a condition of installation. Mac users will only need to install Rosetta 2 if they need to do one of the following:
 - Use SMART Notebook with the "Open using Rosetta" option set to enable use of 3D object manipulation or the SMART Document Camera viewer in SMART Notebook content.
 - Run the firmware updater for SMART Board M700 series interactive whiteboards.
 - Upgraded the embedded web browser
-

Known issues

- Mac
- The SMART Document Camera viewer doesn't work for SDC-450 on Apple M1 devices.
 - SMART Notebook currently does not support use of the SMART Document Camera viewer and interaction with 3D Objects while running natively on M1 processors. To access these features, use Finder to set SMART Notebook to open using Rosetta.

SMART Notebook 22 release notes

Release date June 3, 2022

Versions

Windows 22.0.3203.0

Mac 22.0.1568.0

Highlights

All operating systems

- Subscription-based features have been renamed to SMART Notebook Plus.
 - The subscription-free version of SMART Notebook has the following changes:
 - Image Web Search and Video add-ons no longer require a subscription to SMART Learning Suite to use.
 - The watermark is removed on all pages.
 - Full touch support when used on a computer connected to a SMART Board interactive display.
 - You can now get a 180 day trial to try out SMART Notebook Plus features.
 - Updated supported operating systems. See the [SMART Notebook 22 specifications](#).
-

Windows

- 4K Presenter now supports:
 - Using the Gallery tab and alignment tools
 - Adding documents and pages to the Gallery tab
 - Adding images using the *Insert* menu
 - Exporting files as other file types
 - Attaching sounds to objects and annotations
 - Recording sounds to attach to objects and annotations on the page
 - Using spell check
 - Creating irregular polygons
 - Resizing table rows and columns
-

Resolved issues

Windows

- Fixed the issue where SMART Notebook would occasionally get frozen on the splash screen.
 - Importing Microsoft PowerPoint files has been improved.
-

Mac

- Fixed the issue where exporting a .notebook file as a CFF file would result in an exported image file. Exporting to CFF now works as expected.
 - Fixed the issue where your license information was not always recognized if you were provisioned using your SMART Account.
-
